3.3	practice-3	4
3.4	Practice-4	4
3.5	Practice-4	4

1 Create Node

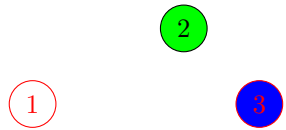

1.1 Create Normal Node:

1.2 Create Normal Node with various shape:

1.3 Create Normal Node with fill color and face color:

1.4 Create a solid node with outside title:

2 Create Edge:

2.1 Normal edge between two node or more node:

2.2 Normal edge with arrow between two node or more node:

2.3 Normal edge with arrow and color between two node or among more node:

2.4 Curve edge with arrow between two node or among more node:

2.5 Create a self loop in any node:

3 Practice section

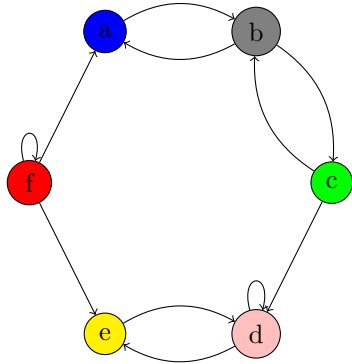

3.1 practice-1

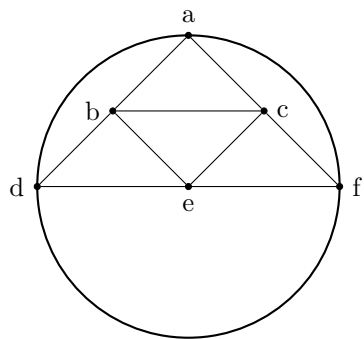

3.2 practice-2

3.3 practice-3

3.4 Practice-4

3.5 Practice-4
